

Resource Dynamics Inc moving forward

By: Ronda Mish

January 1, 2018

New Year, New Owner, New Website, New Journeys!

I'm so proud to be the new owner of Resource Dynamics and Computer Management Group. I have worked along side the previous owners since 1994, building the company, going through ups-and-downs along the way (like every business).

Many of you know us from our add-on product line, the early days of Telemagic, TM-DOCS, TM-Calendar and Word-Merge. Our most popular and current software solution is our Tele-Support HelpDesk. A full customer service, tracking, helpdesk solution. More bells and whistles than any one would ever use. Tele-Support HelpDesk will be going through a rebranding phase getting a more modern look and name change later this year to Total Support HelpDesk. We will remain dedicated to our HelpDesk solution no matter what paths our business may go and to all our loyal customers who continue to keep HelpDesk as their support solution and to our new customers, Thank You!

Our second line of business as a reseller since 2004, for GO-Global software. The best web-enabling solution for Window APPS with NO coding. We are not just reseller's, we are users. So, we truly stand behind this product.

Our new line of business that we will start building in 2018 will be to sponsor a YouTuber who does Gaming Reviews. As an experienced gamer, we will share his reviews on our BLOG site. We are not all business, we do like to play as well. Nothing wrong with mixing business with some fun! The lighter side of life.

We look forward to our new journey and whatever paths we may take, we hope you continue with us.

Thank you

Ronda Mish,

CEO / Owner

Resource Dynamics, Inc.
